## "ENTRAPMENT" IS DENOUNCED BY GOVERNOR COX

Chief Executive of the State Makes Final Disposition of the Charges and Specifications Filed With Him By the Law and Order League of This City Against Mayor Smith.

Emphatic Language Is Used  
In Expressing Disapproval

Method Adopted "In the Assumed Name of an Ohio Community and in Behalf of the Purity of the Place" Characterized as Being Marked By "Depravity."

Governor Cox did not mince words in disposing of the charges filed with him some three weeks ago by the Law and Order League of this city against Mayor Harve W. Smith.

In emphatic language the chief executive does not hesitate to brand the entrapment of the Mayor as indefensible and characterizes that movement as being marked by "depravity."

The language used by the Governor is a strong arraignment of the plan which culminated in the public scandal when Mayor Smith was enticed to a Columbus resort by a woman and there trapped by detectives and taken before the Columbus police chief.

The opinion announced by Governor Cox makes no particular mention of any of the other specifications contained in the charges lodged against Mayor Smith.

In disposing of the charges and dismissing them the Governor, in a letter addressed to R. O. Young, president of the Law and Order League said:

"Careful consideration has been given the charges submitted by the Law and Order League of Washington C. H., Ohio, against Harve W. Smith, Mayor of that city. The circumstances surrounding the whole case have also been gone into thoroughly. Upon information submitted in writing by the attorneys of the Law and Order League at my request, it is admitted that this is an affair of entrapment; that a female detective was employed to induce Mayor Smith to accompany her to a resort, and when the evidence of guilt was completed, police officers, familiar with the plot, raided the place.

"I know of no official act of delinquency that is comparable in the moral scale to the depravity which marked the entrapment of the public officer in question.

"In the assumed name of an Ohio community, and in behalf of the purity of the place, the person of a woman was prostituted that the ends of justice might be served.

"The Executive Department of this commonwealth would, it seems to me, depart from the dignity and spirit of our institutions by giving any recognition whatsoever to a procedure as indefensible as this.

"Very truly yours,

"James M. Cox, Governor."

Whether Governor Cox acted on his own initiative or was requested to make final disposition of the charges at this time by the Law and Order League or by the friends of Mayor Smith is not announced officially. Reference, however, is made in the letter to Mr. Young to information submitted by the attorneys for the Law and Order League at the request of the Governor, which would seem to indicate that the matter was taken up by the Governor on his own motion.

The action of the Governor is a severe jolt to the Law and Order League, but no comment on the action of the chief executive has been made by members of the League.

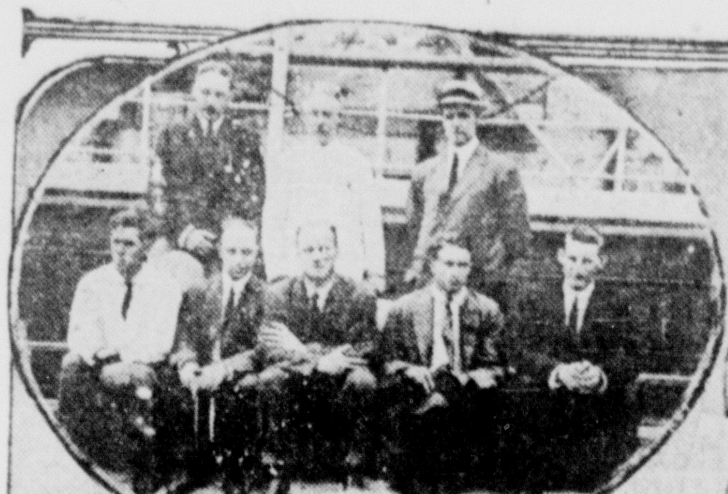

Whether any attempt will be made by the League to revive in any of its details the movement launched some weeks ago is not now believed probable, although nothing has been given out by the League which would warrant a positive statement to that effect.

## MACMILLAN'S CROCKER LAND EXPEDITION STRANDED ON SOUTH COAST OF LABRADOR

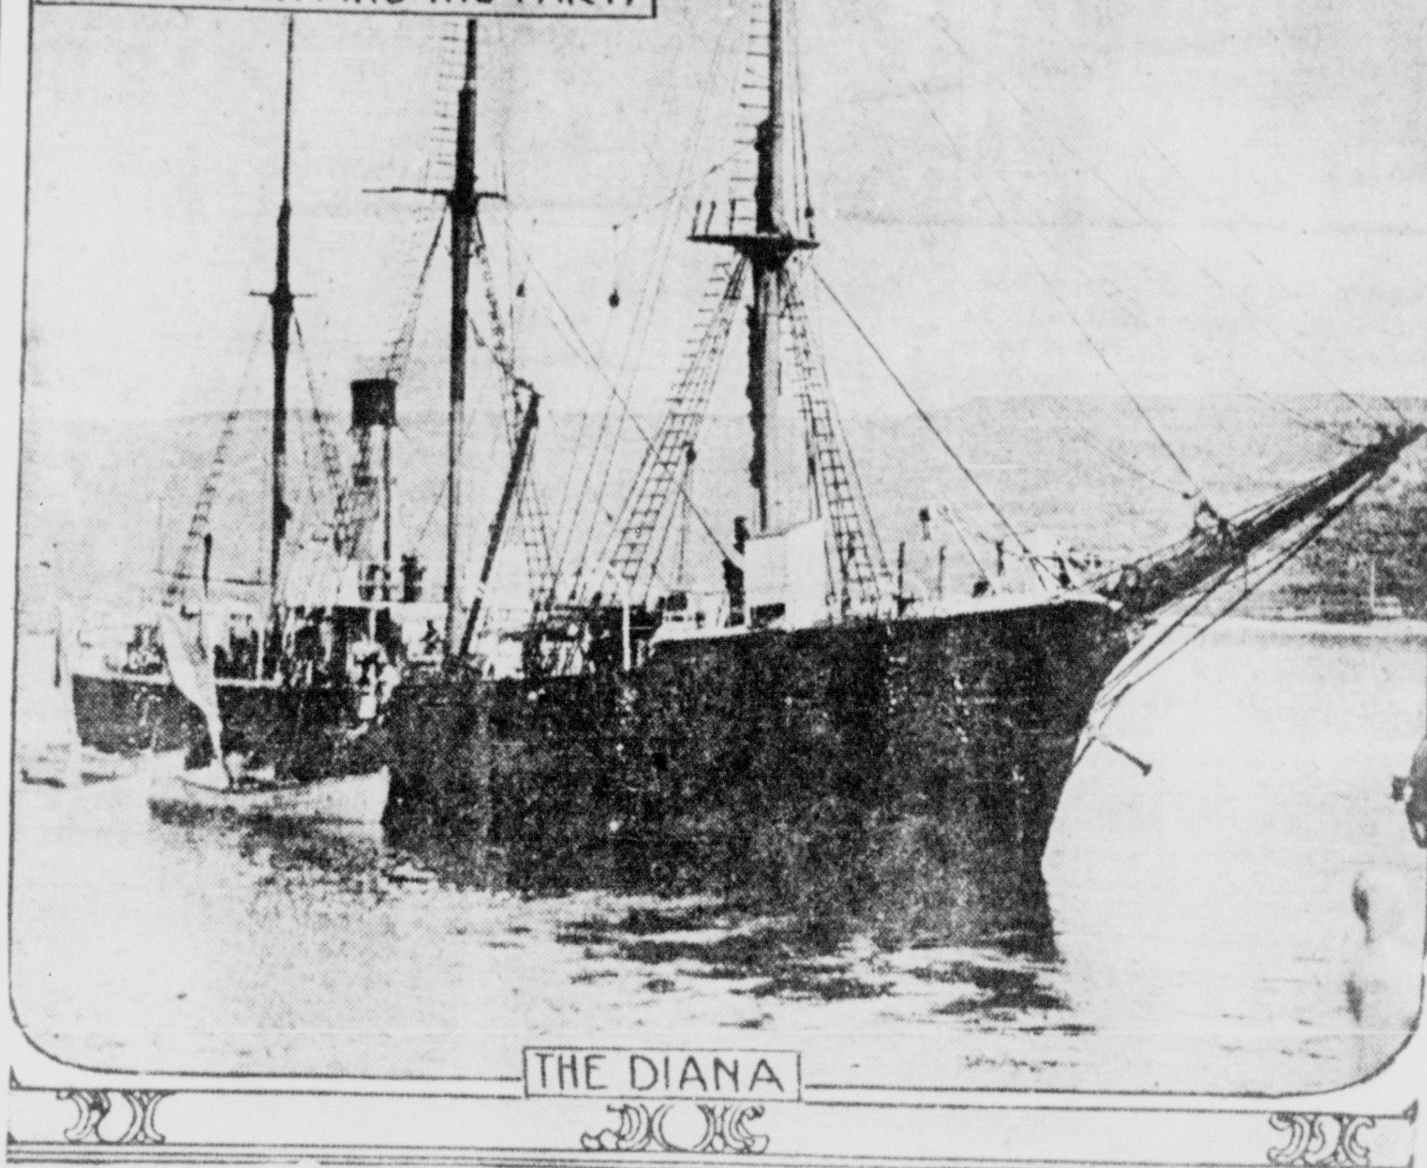

St. John's, N. F., July 22.—The steamship Diana, having on board the MacMillan expedition to Crocker Land, went ashore at Barge point, forty miles west of Battle Harbor, in the Belle of Straits. When a wireless message from MacMillan telling of the disaster was received here the

Stella Maris, a Newfoundland revenue cruiser, hurried to the assistance of the disabled vessel, having to steam more than 400 miles. Barge point is on the extreme southerly portion of the Labrador coast. The expedition was sent out by the American Museum of Natural History.

President H. Fairfield of the institution is seen in the picture at the left. The others shown, left to right, are Dr. Hovey and Donald B. MacMillan, standing, and Dr. H. J. Hunt, Maurice Tanquary, W. Elmer Ekblow, Ensign Fitzhugh Green, U. S. N., and Jerome B. Allen, sitting.

MACMILLAN AND HIS PARTY

THE DIANA

## SIGNS OF THE TIMES FORTELL COMING OF BIG MEXICAN CHANGES

### FALL OF HUERTA BELIEVED NEAR

Sensational Reports Discussed  
By Official Washington.

### CRISIS IN MEXICAN SITUATION

White House Statement Denies Story That the President Had Expressed an Opinion Regarding the Huerta Administration or Its Stability, or Stated Any Intention as to Its Recognition.

Washington, July 22.—The knowledge that alarming reports from Mexico had been received in Washington led to the publication of several sensational statements, some of which purported to be from the president himself. The White House issued this statement:

"On his attention being called to the following statements appearing in certain papers, (1) that the president stated that he would not recognize the Huerta administration and that it would not last a year; (2) that the president had stated that this country would establish a protectorate over all Central American countries to guard the Panama canal, Secretary Tumulty stated that there was absolutely no foundation in truth for either of the above statements and emphatically denied that the president had expressed an opinion regarding the Huerta administration or its stability, or stated any intention as to its recognition."

Reports of conditions surrounding the Huerta government in Mexico have put administration officials in an attitude of keenest apprehension. Advice which officials believe to be trustworthy seem to indicate that the strife between the Huerta regime and the revolutionary elements is nearing a point where some definite conclusion is to be reached.

Information of this situation when permitted to become known was coupled with the authoritative statement that the United States is making no naval or military preparations. Reports of an impending collapse of the Huerta regime are being talked over freely in official circles.

## LIE DIRECT GIVEN BY ANGRY SENATOR

DECLARE MULHALL STATEMENT FALSE

Minnesota Senators Appear Before Lobby Probers.

Washington, July 22.—Senator Knute Nelson of Minnesota told the senatorial investigators of the Mulhall charges that the references made by Mulhall and involving him in a friendly intercourse with Mulhall were false. Senator Nelson's statement was backed up by his colleague, Senator Clapp of Minnesota, whom Mulhall had said in one of his letters was present at a conference between himself and Senator Nelson. To the Mulhall statement Senator Clapp entered a vigorous denial. Senator Nelson was more gentle, though equally positive.

In a letter to Schwedtmann, written four years ago, Mulhall told of a talk he had with Nelson in regard to an amendment to the Sherman act advocated by Seth Low and on which Mr. Nelson as chairman of the judiciary committee made an adverse report. Mr. Mulhall said Nelson assured him that the adverse report practically killed the amendment and gave him (Mulhall) a dozen copies of the report.

### Progressives in Field.

Columbus, O., July 22.—Councilman-at-Large Frank E. Hayden has consented to be Progressive candidate for mayor of Columbus. Petitions for the renomination of Mayor Korb (Dem.) are in circulation.

## DISSATISFIED DEMMIES MAY BLOCK EFFORT OF WILSON MEN

### MONEY BILL NOT TO THEIR LIKING

Four Democrats Out of Tune With the Administration.

### INSURGENCY IN COMMITTEE

Opponents of the Glass-Owen Currency Measure Reported To Be Quietly Organizing and Planning to Offer a Substitute Bill—President Wilson Likely to Take Steps to Check the Movement.

Washington, July 22.—A crisis has been reached in the house committee on banking and currency that menaces the administration's banking and currency bill. President Wilson has been advised of the danger and is about to take steps with a view to checking it. Insurgency has developed to such an extent in the committee that there is danger of the Glass-Owen bill being smothered. The administration learned that several Democratic members of the committee were quietly organizing and have planned to offer a substitute bill or vote against the administration measure. Here is the situation that exists among the Democratic members of the committee:

There are 21 members of the committee. Of this number 14 are Democrats, six are Republicans and one is a Progressive. Representatives Eagle of Texas, Neely of Kansas, Wingo of Arkansas and Ragsdale of South Carolina are the Democrats who are out of tune with the administration and the house leadership of banking and currency reform. Representative Ragsdale left the committee room in the midst of the daily conference and announced that he would not return. Messrs. Wingo, Neely and Eagle are dissatisfied with the pending bill, and it is probable that when the time comes to vote in committee, one or all may side with the opposition. The president is taking steps to get in touch with the recalcitrants and hope is expressed that he will be able to bring them into line.

With the exception of Representative Eagle the views of the "insurgents" on the merits of the Glass-Owen bill have not been clearly expressed. Mr. Eagle is opposed to the measure on fundamental principles, as he himself expressed it. He has informed his associates he believes note issuing should be a government function solely, and he will not support any bill that gives the banks a hand in it.

Representative Henry of Texas, the house leader, is said to be in sympathy with the banking and currency "insurgents." Mr. Henry has made two efforts at this session to revive the money trust inquiry, but thus far he has failed in this endeavor.

## STATE WANTS SHOW DOWN FOR MINERS

Ohio Commission Begins Labors In the Hocking Valley.

Columbus, O., July 22.—Investigation of various Ohio coal mines by the commission which is to determine whether miners should be paid for all the coal they mine or only such portion as passes over the screens begins tomorrow in Hocking Valley district. Jobs No. 2, at Jobs, and Pittsburg Coal company mine No. 9, at Circle Hill, will be the first mines inspected. The former was chosen by the miners and the latter by the operators. The commission will make its headquarters in Nelsonville.

# COUNCIL ADOPTS RESOLUTION TO ISSUE \$10,000 IN BONDS FOR NEW MOTOR FIRE FIGHTER

MANY STREET IMPROVEMENTS  
ALSO RECEIVE ATTENTION.

Plans for Paving North Street are  
Amended Eliminating Portion  
From East Street to Bridge.

PROMPT ACTION IS TAKEN  
ON WEST PAINT IMPROVEMENT.

Oakland Avenue Improvement is Act-  
ed Upon—Semi-Annual Appropria-  
tion Ordinance Passed and Other  
Business Receives Attention Dur-  
ing Special Session of Council Last  
Night.

The special session of the City  
Council held Monday night was one  
of more than passing interest, and in  
addition to action being taken on a  
number of street improvements, a  
resolution introduced by Rothrock,  
calling for the issuance of \$10,000 in  
bonds for the purpose of purchasing  
a motor fire truck was passed with-  
out a dissenting voice.

All members were present with the  
exception of Sheets. There were no  
visitors present and no further pro-  
tests against the improvement of  
streets was offered.

The determination to have better  
fire protection than that offered by  
the present equipment has been  
growing since the proposition was  
first brought before Council, and de-  
cisive action was taken when Coun-  
cil unanimously adopted the ordi-  
nance asking for the bond issue for  
purchasing suitable equipment, and  
within the next two months the city  
will probably have one of the most  
powerful and up-to-date fire fighting  
machines manufactured.

The resolution to proceed with the  
improvement of West Paint street  
from Hinde street to the Dayton ave-  
nue bridge, was passed.

Next came the ordinance for the  
improvement of North street by pay-  
ing with vitrified brick between the  
old corporation line and Paint creek  
bridge. The ordinance was amended  
to eliminate that part between the  
bridge and the south side of East  
street. It was placed upon its first  
reading.

The next ordinance passed was the  
one to improve Oakland avenue by  
laying cement sidewalks, curbs and  
gutters and macadamizing the road-  
way from Leesburg avenue to Clinton  
avenue.

Plans and specifications for a  
storm sewer on Main street from Oak  
street to the creek, were ordered.

The semi-annual appropriation or-  
dinance was passed under suspension.  
Council then adjourned until the  
next regular meeting on August 4th.

## SULPHUR LICK COTTAGE BURNS

A cottage owned by O. C. Reynolds  
of Sulphur Lick was consumed by  
fire a few days ago when a blaze  
from a defective flue started in the  
roof.

Blain Cunningham occupied the  
house at the time and succeeded in  
removing most of his household  
goods.

There are a number of summer  
cottages scattered over the hills near  
the two hotels, forming an ideal  
place for a summer residence.

## NOTICE TO PHYSICIANS

Sealed bids for rendering medical  
attention for one year to the town-  
ship poor of raint township, Fayette  
county, Ohio, will be received. All  
bids must be sealed and in my hands  
not later than noon, Saturday, July  
26, 1913. Bids must be for entire  
township, also for Upper Paint and  
Lower Paint separately.

E. B. TAYLOR, Township Clerk.  
168 Et Bloomingburg, O.

## MONEY TO LOAN

At all times, in any amount.

AMBASSADOR WILSON WILL  
CONFER ON THE MEXICAN  
SITUATION WITH BRYAN

Washington, July 22.—Henry Lane  
Wilson, the American ambassador at  
Mexico City, has been called home  
for a conference with President Wil-  
son and Secretary of State Bryan  
concerning the Mexican situation.  
He cannot reach here before July  
23.

### MEMOIR.

In memory of Dr. Vincent H. Gas-  
kill, who was born August 5th, 1842,  
and departed this life July 11th,  
1913. He was born and lived in  
Fayette county the greater part of  
his life. He entered the old Star-  
ling Medical college in 1860, attend-  
ed this college for two years, then  
entered Berkshire Medical college of  
Pittsfield, Mass., where he graduated  
in 1863. After receiving his medical  
degree he successfully passed the ex-  
amination to the United States Navy,  
and during the war between the  
states was assigned to duty as a sur-  
geon in the navy yards at Mound  
City and Cairo, Ill., where he served  
about two years. At the close of the  
war he engaged in the practice of  
medicine in London, Ohio, where he  
remained for six years, then moving  
to New Holland, Ohio, where he re-  
sided two years, after which he lo-  
cated in Waterloo where he has spent  
the remainder of his life in faith-  
fully following his chosen profession  
for which he was well qualified and  
in which he had good success. He  
accepted Jesus Christ as his Saviour  
many years ago and united with the  
Christian church which he dearly  
loved and to whose interests he was  
always loyal and true. He had an  
extensive acquaintance and the in-  
fluence of his manly, sincere and up-  
right life was helpful to all who  
knew him.

He was united in marriage with  
Francena Messmore about the close  
of the war and was blessed with one  
son, Pliny Earl, who resides in  
Pennsylvania. His wife dying and  
leaving him alone with the child,  
he united in marriage with Letitia  
Norris March the 12th, 1879. To  
this union were given three children,  
Dr. Ralph P., of Columbus, Ohio;  
Guy V. and Stella, who with the  
faithful devoted wife survive him  
and will deeply feel their great loss.  
He will be greatly missed by many  
people who knew and loved him,  
whose presence in the home was like  
sunshine and whose skill brought  
gladness and joy.

"Servant of God, well done."  
Thy toilsome life is passed,  
The battles fought, the victory won,  
And rest has come at last.

## GARRISON TO VIEW POSTS.

War Secretary Plans to Reduce and  
Relocate Army Garrisons.

Washington.—With the object of  
formulating a plan to reduce the num-  
ber of army posts Secretary Garrison  
will make a tour of inspection of the  
207 military stations throughout the  
country. In the opinion of Mr. Garri-  
son, the posts are situated inconve-  
niently from every standpoint of mili-  
tary efficiency. Mr. Garrison believes  
in concentration.

One of the great difficulties in the  
way of carrying out what the secre-  
tary of war has in mind is the oppo-  
sition of congressmen to the abolition

© 1913, by American Press Association.  
SECRETARY GARRISON.

of army posts in their states or the  
number of troops at these posts reduc-  
ed. A story became current that Sec-  
retary Garrison had said that if he  
could not put through his concentra-  
tion plan he would resign, but Mr.  
Garrison denied that he had made any  
such threat. He said:

"Undoubtedly the people who are  
benefited by the presence of the army  
at different posts will put very strong  
pressure upon their representatives in  
congress with a view of having all  
the army they can get at every place  
where their presence will benefit the  
people commercially. This undoubtedly  
will result in congressmen making  
these representations to me and in my  
having to get them to co-operate with  
me in the most intelligent treatment  
of the subject possible. I have not in  
this connection suggested that con-  
gress and I would come to any con-  
flict or that I would fight the thing out  
to a finish or that I would under any  
circumstances resign."

## The Thing He Remembered.

A young girl of romantic disposition  
sat at dinner next to a man who had  
once rowed on one of Cornell's greatest  
crews. She tried to draw him out on  
the subject of racing and of the par-  
ticular contest in which he had cap-  
tained the crew in his senior year. "I  
suppose," she said, "that your most  
vivid recollection of that race is of the  
cheers of the crowd as you came  
across the finish line?" He shook his  
head. "Maybe it was the start which  
burned itself on your memory; the re-  
collection of the tenseness of the wait  
before you heard the starter's pistol?"  
Again he shook his head. "What is  
the thing in connection with the race  
that you remember most distinctly?"  
"Well," said the oarsman slowly,  
"when any one talks about that race  
it always brings one recollection, one  
picture, a very vivid one, to my mind  
right away." "What is that?" asked  
the girl eagerly. "The man who rowed  
No. 4, who sat just in front of me, had  
a mole exactly midway between his  
shoulder blades."—New York Tribune.

## A Comet Scare.

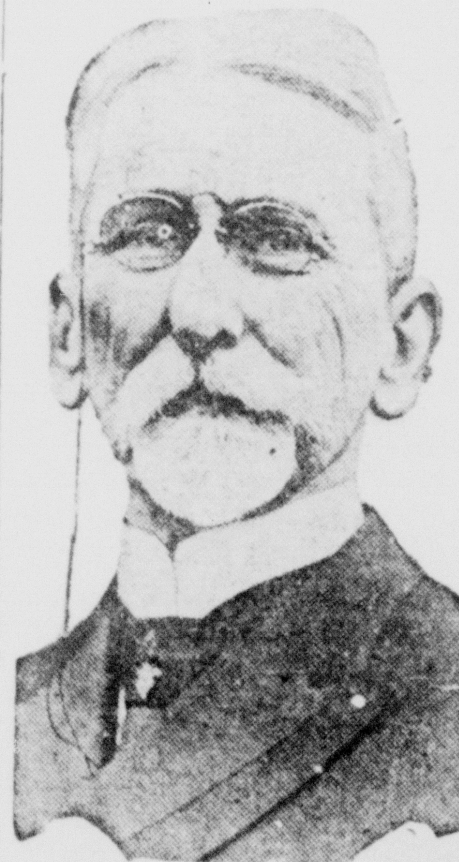

Joseph Jerome Lafrancais de La-  
lande, the popular French astronomer  
of the eighteenth century, differed  
from Newton's view that Providence  
had so arranged matters as to make  
collision of the earth with a comet im-  
possible and wrote a paper to prove  
that it was only very improbable. This  
paper, which was to have been read  
with others before the French acad-  
emy on a certain day in 1773, got  
crowded out, but the Parisian public,  
hearing of it, made up its mind that  
Lalande had predicted the impending  
destruction of the earth and such pan-  
ic ensued that the police had to order  
the publication of the paper to reas-  
sure the public mind. But even then  
it was popularly believed that the pa-  
per had been deliberately toned down  
and comet panics continued for a quar-  
ter of a century.

## The Appian Way.

The famous Appian way, called Re-  
gina Viarum, "the queen of roads," is  
at once the oldest and most celebrated  
of all the highways laid down by the  
Romans. It linked the capital of the  
Caesars with all the important cen-  
ters of southern Italy and was con-  
structed or partly constructed under  
the Censor Appius Claudius Caecus in  
313 B. C. In view of the natural ob-  
stacles presented by the route the cost  
of the enterprise must have been enor-  
mous. In a deep foundation, from  
which all loose soil had been cleared,  
were laid several strata strongly ce-  
mented, and above these was placed  
the pavement of large hexagonal  
blocks of basaltic lava, fitted together  
with such precision that the joinings  
did not show.

## Spouting Whales.

The prevailing impression that  
whales spout water through their blow-  
holes is declared to be incorrect. Ac-  
cording to Professor Willy Kuenthal  
of Breslau, what has been taken for  
fountains of water by sailors and oth-  
ers is really the breath of the whale  
charged with moisture, like the visible  
breath of a man on a cold morning.  
Dr. Kuenthal suggests that the  
breath of the whale is sent out from  
the lungs under powerful pressure and  
the expansion of it as it reaches the  
air makes the vapor visible. A  
whale's blowholes connect directly  
with the lungs, but the mouth has no  
connection with the nasal passages, so  
that it is impossible for the water tak-  
en in at the mouth to be thrown out at  
the blowholes. Dr. Kuenthal points  
out the fact that young whales do not  
blow and larger ones are never seen  
to blow on hot days.

## He Would, Indeed.

A man would save a great deal of  
valuable time if a list of addresses im-  
portant in his business were as easy to  
remember as a bunch of funny stories.

## PERSONAL PARAGRAPHS

Mr. and Mrs. Wm. Long visited with Mr. and Mrs. James Poole in Middletown over Sunday.

Miss Anna Louise Ustick, of Cincinnati, who has been visiting her mother, Mrs. Bella Ustick, left Tuesday afternoon for North Tonawanda, N. Y., to visit her brother.

Mr. and Mrs. A. F. Hopkins, Mrs. Ellen Jones, Mrs. Jos. N. Willson, Mrs. Marsh Willson and children, of Boston, Mass., are on a motoring trip to Maple Grove Springs today.

Miss Levon Cockerill left Monday for Anderson, Ind., where she will visit a college friend.

Mr. Ed Fite left Monday night on a business trip to Cleveland.

Miss Lina Willis has returned from a five months' stay in Washington, D. C., where she visited friends and was also interested in the settlement work of "Neighborhood House."

Mr. and Mrs. Wert Shoop are making a most delightful steamer trip to Duluth, Minn., via Mackinac and the Soo. They are on the steamer Octorara, one of the finest boats on the lakes.

Misses Mae Duffey and Clara Gross were guests at Sulphur Lick Springs over Sunday.

Mr. and Mrs. Roy Reeves were down from Columbus over Sunday.

Howard Harper has returned from a visit in Columbus.

Mr. Maynard Craig leaves Wednesday on an extended trip. He expects to visit his uncle, Mr. Herbert Maynard and family, in Waterloo, Ia., and a college friend at Davenport, Ia., as well as spending some time in Chicago and Michigan.

Mr. and Mrs. J. Weekly, Mrs. Frances Westerfield and sons, Ashur and Richard, motored to Dayton Monday.

Mr. Sidney Katz is spending the week with his mother in Cincinnati.

Messrs. J. A. Smalley, Glenn M. Pine, E. A. Klever and Os Briggs were Columbus visitors for the day.

Mrs. Jess Persinger, and guest, Miss Lorain Larima, of Flint, Mich., are spending the day with Mrs. Persinger's parents, Mr. and Mrs. W. A. Morford, of Sabina.

Miss Violet and Alice Friend, of Dayton, are visiting their grandmother, Mrs. Kimble, on N. North St.

Miss Lucy Edna Pine returned home with Mr. and Mrs. Fred Mark and family for a two weeks' visit at their home.

Mrs. Esker Post is visiting her son, Frank Post and wife in Middletown.

Mr. and Mrs. C. P. Bostwick and family have returned from Columbus where they visited Mr. Bostwick's sister, Mrs. Rhoda Oyer.

Earl Post and family were the guests of his sister, Mrs. Harry Rankin, Monday enroute from a visit in Chicago to their home in Columbus.

Miss Wanda Mae Norris has returned home from a four weeks' visit with her aunt, Mrs. C. E. Hise, near Madison Mills.

Mr. Louis Counts, of Richmond Dale spent Sunday with his uncle, J. P. Rogers.

Edwin and Florence Counts, of Richmond Dale are the vacation guests of Albert and Alberta Rogers of East Paint street.

Mrs. Wesley DeWees and Miss Florence Ogle leave Wednesday for two weeks at Chautauqua Lake.

Miss Jessie Wain returned Sunday evening from a fifteen days' tour of the eastern states, visiting Washington, D. C., Newport, New York, Boston and returning by way of Niagara Falls and Buffalo. She was accompanied by a party of friends from Columbus.

## JAPANESE EFFECTS ARE MUCH IN VOGUE

BLACK EMBROIDERED GOWN

Carrying out the demand for Japanese effects, the designer of this handsome Parsian gown has made lavish use of gold and crystal embroideries applied in oriental patterns to the draperies of black mousseline de sole, which are adjusted over a foundation of charmeuse. A fichu of fine tulle is draped over the bodice.

## WILL PROCEED WITH BUILDING

Commencing Wednesday morning the work of removing the debris of the old Millikan block which collapsed Saturday evening and wrecked the small brick structure adjoining it, will be pushed rapidly so that work on the new walls of the Klever block can be started with as little delay as possible.

Plans for the new building will be changed to include an entire new west wall, and when completed the structure will be much more handsome than it would otherwise have been.

Mr. Klever will rebuild the Sharp building which has been occupied by the Hall cleaning works for several years.

## "SAMBO" LOSES ONE OF HIS OPTICS

"Sambo" the target for ball throwers who has been making the rounds with Todd Brothers United Shows which pitched their tents in Xenia a few days ago, is minus one eye as a result of a ball hurled by some sharp shooting Xenian.

"Sambo" had his head poked through the canvas when the youth hurled the ball with such unerring aim that it struck the colored man in the eye and destroyed the sight.

The man has been in this city and at the county fair, but the mishap will end his career as a target.

## TAKEN TO COLUMBUS FOR AN OPERATION

Caspar Timmons, of New Holland, was brought to this city Tuesday morning and placed on the 10:35 train for Columbus, to be taken to the Grant hospital to undergo an operation for appendicitis.

Mr. Timmons was accompanied by Dr. Kaler and a few close friends. He has been ill for some time and his condition is critical.

### I. O. R. M.

Regular meeting Wednesday evening July 23. All members are requested to be present, especially all members of the Degree team. Business of importance.

E. ARBOGAST, Sachem.  
R. M. ELLIOTT, C. of R.

## NEW HOLLAND BOOSTERS COMING

Announcement has been received here that a dozen automobile loads of citizens from New Holland will come to this city soon for the purpose of giving a short concert and advertising the annual field day and picnic to be held near New Holland, July 31st.

The party are to have the New Holland band and some vocalists with them, who will entertain the crowd while the party stops here.

Monday night twelve auto loads went to Mt. Sterling and gave a concert at that point.

## REQUEST TO RELEASE PRISONER IS REFUSED

Superintendent D. E. Crow, of the Xenia work house has refused to comply with the request of the County Commissioners who Saturday asked for the immediate release of Alfred B. Brown, convicted of bootlegging and fined \$100 and the costs by Mayor Creath of Bloomingburg.

Mr. Crow's letter says:

Xenia City Work House.

Xenia, Ohio, July 21, 1913.

To the Honorable Commissioners, Fayette County, Ohio.

Gentlemen: Your communication in regard to Alfred Brown received. Permit me to say in reply that your order for release is illegal and I dare not comply with it.

However, I will refer the matter to the Joint Board of Workhouse Directors at earliest opportunity and be governed by their order.

Your prosecuting attorney will tell you this is the only course I can take in the matter.

D. E. CROW, Supt.

## REMARKABLE YIELD ON SMALL FIELD

Mr. W. H. Sheridan, of Staunton, had the remarkable yield of 45 bushels to the acre of fine quality wheat on a small 4-acre field.

The field has been the subject of much speculation in the neighborhood and the estimate before threshing placed at 40 bushels per acre.

## TAKES JUDGMENT

C. W. Mark has taken judgment in the Common Pleas court for \$216.73 on a promissory note for \$108 issued April 1, 1898 by Aaron Johnson.

The note bears 8 per cent interest from date and the amount has more than doubled what it originally was.

## INCREASE IN FOOD ANIMALS.

Number Killed in United States During the Fiscal Year 1912, 491.

Washington.—Reports to the department of agriculture show that in the fiscal year ended June 30 last 57,628,491 animals were slaughtered under federal inspection in the 790 slaughtering establishments in 225 cities and towns of the United States—an increase of nearly 5,000,000 over the previous fiscal year. Of the animals inspected by government officials in the last fiscal year there were 7,245,585 cattle, 2,277,954 calves, 14,979,354 sheep, 72,871 goats and 33,052,727 hogs. Slaughtering establishments and meat food factories increased from 919 to 940 in the fiscal year.

Chicago, with 12,910,506 animals slaughtered under federal inspection, leads in numbers. The other principal points of federally inspected slaughter are in the following order: Kansas City, 5,646,161; South Omaha, 4,609,655; New York, 3,034,685; national stock yards East St. Louis, 2,996,292; South St. Joseph, 2,671,443; Boston, 1,826,044; Indianapolis, 1,508,503; Sioux City, 1,529,907; Buffalo, 1,381,271.

The total condemnations at the time of slaughter for disease or other causes numbered 232,867 whole carcasses and 494,328 parts of other carcasses, or a total of 727,015 condemnations. In addition, nearly 18,000,000 pounds of prepared meats and meat products were condemned on reinspection because they had become unwholesome subsequent to the first inspection.

"Now, sir," she commanded, "look me in the face and deny, if you dare, that you married me for money!"

He raised his eyes until they were directed to her countenance and faltered:

"Well, I think I earned the cash, don't you, dear?"—London Mail.

### Very Formal.

"Are you on very friendly terms with your neighbor in the apartments?" "Well, no. She's rather formal—always sends her card when she wishes to borrow flour, and if she wants both flour and sugar she sends two cards."—Washington Herald.

## GREAT R. R. STRIKE WILL BE AVOIDED

100,000 Men Affected by New Mediation Law.

## CONGRESS ACTED HASTILY.

Forty-two Companies Which Would Be Affected Serve 50,000,000 Persons. Territory is East of Mississippi, North of Ohio and South of Canadian Border.

New York.—The situation on forty-two eastern railroads when the members of the Order of Railroad Conductors and the Brotherhood of Railroad Trainmen voted almost unanimously to strike looked most threatening before arrangements to avoid the strike were completed. Preparations were made to unravel the tangle and bring the employers and employees together for a settlement of the differences without the necessity of a general strike.

Had the men struck every railroad in the east would have been tied up, temporarily at least. No provision had

Photo by American Press Association. AUSTIN B. GARRETSON OF CONDUCTORS' UNION.

been made to move the mails or to haul milk supplies and produce into the crowded cities.

The 100,000 members of the Order of Railway Conductors and Brotherhood of Railway Trainmen on the eastern systems who voted to strike unless the roads granted their demands have asked for a 20 per cent raise in wages and better working conditions.

Through their conference committee the railroads refused the demands on the ground that the raise would amount to \$17,000,000 annually and they can't afford to pay this sum. The employees offered to arbitrate under the Erdman act, but the roads refused until the act was remodeled. This has been done.

Forty-two railroads are affected. They control 48,000 miles of trackage and include every system traversing the territory east of the Mississippi and north of the Ohio river and Chesapeake and Ohio railroad to the Canadian line. They serve 50,000,000 persons.

When the question of a strike was put to a vote 72,473 declared in favor of leaving the service and 4,210 were recorded as being against such action. Every road ratified the strike vote.

The railroads affected are:

Boston and Albany; Boston and Maine; Baltimore and Ohio; Bessemer and Lake Erie; Buffalo, Rochester and Pittsburgh; Buffalo and Susquehanna; Central New England; Central Railroad of New Jersey; Cincinnati, Hamilton and Dayton; Chicago, Indianapolis and Louisville; Chicago, Indiana and Southern; Cleveland, Cincinnati, Chicago and St. Louis; Cincinnati Northern; Chicago, Terre Haute and Southeastern; Delaware and Hudson; Delaware, Lackawanna and Western; Detroit, Toledo and Ironton; Erie, Grand Rapids and Indiana; Hocking Valley, Kanawha and Michigan; Lake Shore and Michigan Southern; Lehigh and Hudson River; Long Island; Lake Erie and Western; Maine Central; Michigan Central; New York, Philadelphia and Norfolk; New York, Susquehanna and Western; New York, Chicago and St. Louis; New York Central and Hudson River; New York, New Haven and Hartford; New York, Ontario and Western; Pennsylvania (east of Pittsburgh); Pennsylvania (west of Pittsburgh); Philadelphia and Reading; Rutland, Toledo and Ohio Central; Vandalia; Wheeling and Lake Erie; Western Maryland; Zanesville and Western.

### Snake Darkens a Town.

Mullin, S. C.—All the electric lights in town went out suddenly the other night and stayed out. Next morning firemen found a twenty inch green snake tangled in some wires on a pole. The snake had crawled to the top of the pole and, coming in contact with the wires, forced a short circuit, put out the lights and incidentally died.

THE EASE WITH WHICH A BINDER MAY BE APPLIED AND PENETRATION OBTAINED, ARE IMPORTANT FACTORS IN FIGURING COSTS.

For penetration GLUTRIN can be made extremely thin WITHOUT HEATING, and it may be discharged from any watering cart as easily as water itself.

ROBESON PROCESS COMPANY  
PENNINGTON, NEW JERSEY

## THE REVOLVER AND ITS CUSTODIANS.

—Fitz in Chicago News.

## CANNOT EMPLOY GIRLS UNDER 18 SAYS NEW STATUTE

Special to Herald.

Columbus, Ohio, July 22.—An error has been discovered in the new Child Labor law, the effect of which is to make it unlawful to employ girls under 18 years of age.

The intention was to make the law provide that girls between sixteen and eighteen years could work if they gave educational certificates.

### Hood's Bit of Fun.

An English beer vender wrote over his shop door:

"Bear sold here."

Tom Hood, who saw it, said it was spelled right.

"The fluid the man sells," Hood explained, "is his own brain."

### Spoils it All.

"Speaking of the theater, I like plays with a happy ending."

"So do I. But my wife almost always loses a handkerchief or a glove."

—Washington Herald.

## PARRETT'S GROCERY

"THE YELLOW FRONT."

THE HOME OF QUALITY FOR TWENTY FIVE YEARS.

## Fancy Elberta Freestone Peaches

This week \$2.50 per bushel. \$1.40 per half bushel.

8c per pound, 2 pounds 15c, or 25c for small basket.

These peaches are very fine quality.

Fancy Hothouse Cucumbers 5c each today.

Indiana Canteloupes by express daily. Prices 5c, 8 1-3c, 10c and 12 1-2c each. Nothing equal to these canteloupes coming to town.

Fresh Green Beans tomorrow 7c pound.

The Large Sugar Peas 10c per pound.

Fresh Green Corn 20c per dozen.

Hill Blackberries every evening 10c per quart, \$2.50 per bushel.

Hyer's Home-grown Tomatoes 15c pound, 75c per 6-lb basket.

WE CLOSE TOMORROW AT NOON until Thursday morning. Please let us have your orders early.

## Many Loyal to the Horse

There are quite a few people, not hampered by lack of financial ability either, who refuse to transfer their allegiance from the horse to the automobile as a means of getting about from place to place.

These are the folks whose love for the horse far outweighs their desire to get from one place to another in the shortest possible time and are not particularly fond of long journeys. With such people to own, to handle and to be in sympathy with the horse—man's best and oldest friend in the animal kingdom—is the real desire. They are the people who get more real genuine enjoyment in "pulling the ribbons" over the back of a spirited sensible horse than in anything else in the field of sport or recreation.

There is, and always has been something about the horse—his own individual peculiarities of temperament or looks—little qualities which, to the owner, distinguish him from the general run of horses which is irresistibly attractive to many people. There is a something about the intelligent, faithful horse which attracts and holds many men and women—there is a companionship, an understanding between men and horses, frequently, which never can obtain between men and any mere machine, no matter how costly nor how elaborate the machine may be.

There is a bond—a perfect understanding—between the family horse and the owners which cannot be broken by all the fascination which a fine touring car holds.

The horse has not yet been crowded out by the automobile by any manner of means—he is supreme in a field which machinery has not yet invaded and a field which machines can never take from him.

Many men and women like the companionship of the horse and are content with shorter journeys and fewer of them in order to retain the old "comradeship".

And while man has been making progress, so have the horses. They are faster and cleaner limbed, more enduring and more intelligent today than ever before. They have taken up with new conditions and have adapted themselves to them just the same as men have done.

The man who recognizes that his horse is a living, breathing creature, sensitive to wind and storm, capable of suffering, with affections almost like a human being, knows his home, his duty and his friends, loves and hates almost like man, can bring the family safely home in the darkest night, can make all the turns and stop at the right place, there is nothing but the horse for him.

## Have Our Climatic Conditions Helped to Make Us Superior Athletes?

By Dr. HOWARD KENNEDY HILL, Chairman of the Track Committee of the University of Pennsylvania

IT may be too sweeping to attribute our modern national athletic superiority to our methods alone. During the two generations that have elapsed since our earliest records were made the climate of this continent has been HAVING ITS EFFECT UPON THE PHYSIQUE AND VITALITY OF OUR PEOPLE.

THE STUDY OF CLIMATIC CHANGES IN THE PHYSIQUE OF A RACE IS STILL TO BE MADE EXACT. BOTH INVESTIGATIONS AND STATISTICS REMAIN TOO MEAGER FOR THE EXPRESSION OF POSITIVE OPINIONS. BUT IT IS BY NO MEANS TO BE DENIED THAT OUR ALTERNATIONS FROM THE INVIGORATING COLD OF THE NORTH OF EUROPE TO THE HOT SUMMERS OF ITS SOUTHERN COUNTRIES MAY BE SLOWLY EVOLVING FOR US A WIRY PHYSIQUE WHICH MAKES FOR FLEETNESS AND ENDURANCE.

Four years from now we Americans may not find our superiority so obvious, and even now, if we consider our general population instead of our picked and trained athletic champions, there is one country which can show an average as fine as the United States. That country is Sweden, where its WONDERFUL SYSTEM OF EXERCISE is continually improving the general physique not only of the men, but, what to my mind is much more important, that of the women who are to be mothers of the future race. With the methods that have won for us our supremacy, persistent, wise Sweden—yes, and some other nations of Europe—may prove more to be feared at the next Olympics than they were in the past.

Our greatest advance has been made within the last two years. If we will examine the conditions at home closely we must be impressed with the increased interest in track athletics shown by our SCHOOLBOYS. This is another and important reason for our remarkable advance in skill and speed. While the boys find in their athletics a SPLENDID MEANS OF ACQUIRING HEALTH, the more careful attention paid to their training MEANS THE BETTER ATHLETE when any one of them rises above the mass and develops championship form. The immense number of boys now devoting themselves to track work has meant a corresponding increase in the quality as well as the number of college men who are out for the lowering of records.

## Poetry For Today

## TWENTY YEARS AGO.

I wandered through the village, Tom  
And went to see the game  
Upon the old familiar grounds;  
But things are not the same.  
For none were left to greet me, Tom  
And few were left to know  
Who used to play upon the team,  
Some twenty years ago.

The old grandstand is altered now;  
The benches are replaced  
With new ones very different from  
The ones our knives defaced.  
The same old tricks are still in use;  
The balls went to and fro  
In much the same old way, dear Tom,  
As twenty years ago.

But somehow things seem different,  
Tom,  
It didn't seem to me  
As if they ran the bases well;  
The hitting wasn't free.  
I heaved a sigh for olden times  
And left my seat to go—  
It wasn't like it used to be,  
Some twenty years ago.

But suddenly a shout went up  
And, much to my relief,  
It was the old familiar cry  
Of "Murder! Robber! Thief!"  
I then resumed my seat, dear Tom,  
And now full well I know  
They play the game just like they  
did  
Some twenty years ago.

The tears came to my eyes, dear Tom  
My heart began to pump.  
I grabbed an empty bottle, Tom,  
And hurled it at the "Ump."  
But I had lost control, dear Tom,  
The chuck was wide and low—  
I could have plugged him fair and  
square  
Some twenty years ago.

Post-Dispatch.

## Weather Report

Washington, July 22.—East Illinois, Fair, warmer Tuesday; Wednesday fair in south, unsettled north portion, light winds, mostly south-east and south.

Kentucky and West Virginia—Fair, warmer Tuesday; Wednesday fair.

Virginia—Fair Tuesday and Wednesday light variable winds.

Western Pennsylvania—Fair Tuesday and Wednesday; rising temperature, light to moderate variable winds.

Ohio—Fair, warmer Tuesday; Wednesday increasing cloudiness, light to moderate variable winds becoming east.

Indiana—Fair, warmer Tuesday; Wednesday fair in southern, unsettled in north, light to moderate winds becoming south.

Lower Michigan—Fair, warmer Tuesday; showers, Wednesday or Wednesday night light to moderate winds.

Tennessee—Fair Tuesday and Wednesday.

## WEATHER OBSERVATIONS.

Observations of the United States weather bureau taken at 7 p. m. Monday.

Boston	66	Cloudy
New York	77	Clear
Buffalo	68	Clear
Washington	76	Clear
Columbus	74	Clear
Chicago	68	Clear
St. Louis	80	Clear
St. Paul	78	Clear
Los Angeles	80	Clear
New Orleans	80	Cloudy
Seattle	82	Clear

## Weather Forecast.

Washington, July 22.—Indications for tomorrow:  
Ohio—Increasing cloudiness, light to moderate winds, becoming southeast.

## Both Eyes Burned Out.

Philadelphia, July 22.—With both eyes virtually burned out and several hundred volts of electricity coursing through his body, A. Tirkath, an electrician employed at the Baldwin locomotive works, clung to an electric crane until fellow employees shut off the current and rescued him. He was rushed to a hospital, where the doctors said the sight of both eyes had been permanently destroyed.

## Train Crew Injured.

Bellefontaine, O., July 22.—A special train of five Pullmans, occupied by members of the Seventeenth United States Infantry, crashed into the caboose of a freight train on the Sandusky division of the Big Four here. Four injured are Engineer Williams and Fireman Kayes of the passenger train, who jumped; R. D. Owen, brakeman, and Harry Sloan, conductor of the freight crew.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

The guano deposits of Chili are worth more money than the richest gold mine in the world. It is claimed that the precaution taken by the Chilean government in restricting the exportation of the fertilizer is hardly warranted when we realize that the deposits are 180 feet in depth and as the removal proceeds the quality improves. The value is more than \$1,000,000,000 at the islands. Since 1840, the year the first cargo was shipped to Europe, consisting of but 180 tons, the amount removed has steadily grown larger until two years ago 8,000,000 was exported.

A bronze tablet marking the site of the home of John Kinzie, Chicago's first builder, was unveiled recently at Pine and Kinzie streets under the auspices of the Chicago Historical Society. The ceremony was performed by Rosaline, the 10-year-old daughter of Mrs. Herbert A. Havermeyer, the latter being the great-granddaughter of John Kinzie, often called the "Father of Chicago". The log house which faced the river at the foot of what is now Pine street was built in 1779, and was owned by Point du Saible, the Le Mar, a French fur trader.

The United States cruiser Detroit is being converted into a coal-carrying barge to be used in the coastwise and river trade out of Philadelphia. The purchasers of the old cruiser got enough brass and copper from the engine room alone to pay the entire cost price.

After having been abandoned for years the first coal mine in the U. S. is about to resume operations. The mine is in Richmond Basin, Henrico county, Virginia, and was first opened in 1709. Operations continued without stop for nearly a century, when it was believed the supply had become exhausted. Recent explorations, according to the geological survey, disclosed a considerable amount of fuel there, and work will at once begin.

A writer in the Moslem World describes the extent of divorce in Mohammedan Egypt. Tateefa, of B. in her 19th year had been divorced 4 times. Ibrahim Effendi, a youth of 27, has been married 13 times. Another youth, when reproved for taking a 28th wife, replied, "Why should I not when my father divorced 39?" It is a common saying among Moslems, "A woman is like a pair of shoes. If she gets old a man throws her away and buys another as long as he has the money." No pretense is made of recording divorces. "You find a woman in this house today and in another tomorrow."

The Paris fire department intends to double the capacity afforded by its automobile fire engines, by the use of 15 automobile fire pumps, which will be of lighter design than the ones in use. The new engines will carry 6 men instead of 15. On the wagon truck is mounted a 100-gallon tank, so as to afford an immediate supply of water for the hose, so that a stream can be put on the fire at once while the connection is being made with the fire plug. This type of light engine is especially intended for fighting moderately sized fires.

## TELEGRAPH OPERATOR FROM DRY TERRITORY

J. R. Barnes, who has been holding a key in the B. & O. S-W. office at Leesburg, came to the city Wednesday to enjoy the privileges of an American citizen but did not know what his capacity was, with the result that he was found asleep on the bosom of Mother Earth in South Maplewood avenue, with several "yellow perils" sticking out of his pockets.

The man was so badly befuddled from the effects of liquor that he did not know where he was, and mumbled to the officers that he was in Leesburg.

The city not being the owner of a patrol wagon in connection with the fire department, Frank Lynch, the pop manufacturer's delivery wagon was pressed into commission and Barnes was taken to headquarters.

This morning he was fined \$5 by the Mayor and assessed \$1.50 for the use of the patrol wagon.

Barnes got off cheap at that as he might have easily have been "rolled" for his money, nearly \$30.—Chillicothe Herald.

## BABY'S WORST ENEMY.

—Evans in Baltimore American.

## A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

December 15, 1872.

The ladies of the M. E. church will give a festival December 28, 1879. There will be an auction room. Donations are wanted for this auction. The committees are as follows: Fancy table—Mrs. Mary Coffman, Mrs. S. A. Keen, Mrs. H. L. Hadley, Mrs. R. A. Robinson, Misses Mary-Jory Waters, Lide Williams, Sallie Purcell, Gustie Mouser, Nar Rush, Callie Wheritt, Mary Brown, Annie Millikan, Jennie Shields, Lide McElwain, Mary Millikan, Jennie Bell, Huddy Brownell, Julia Ferguson, Mr. Jas. Ely, Mr. M. D. Jacobs. Coffee table—Mrs. John Cissna, Mrs. James Adams, Mrs. Jacob Light, Mrs. Kate Lawhead and George Adams. Oyster table—Mrs. Rebecca Stewart, Mrs. McKender, Mrs. Mary Lydy, Mrs. Mills Gardner, Dr. Blume, C. F. Dean, R. A. Robinson. Cake table—Mrs. Jas. King, Mrs. G. Epps, Miss Ella Blumfield, Mrs. Peter Wendel, Mrs. M. V. Logan, Mrs. Snider, Mrs. George Pine, Ella Rodgers, James Gould, Candy table—George Dahl, Baldwin Millikan, Mrs. J. W. Sayre, Miss Grace Rush, Miss WHI Shook, Fred Bostwick. Auction room—Mills Gardner, S. A. Keen, Jas. King, D. Waters, J. W. Sayre and John Cissna.

## WILL CONTEST NEW GOOD ROADS STATUTE

Cincinnati, July 21.—The big market road tax levy, estimated to produce over \$3,000,000 annually, is to be held up and attacked in the court. That the attack be made has been ordered by the Hamilton county budget commission. That body, backed by Mayor Hunt of Cincinnati, authorized County Auditor Edmondson to refuse to make the half-mill levy.

The Hite road tax law provides for a half-mill levy outside the limitations of the 1 per cent tax law. The Hamilton county taxing officials will not base their attempt to knock out the levy on that ground. They will contend that it is unconstitutional because of being unfair. The proceeds of the tax are to be distributed among the 88 counties in equal shares, regardless of population and regardless of the amount collected in the county.

The Hite law will compel Hamilton county taxpayers to pay into the state treasury \$312,000, but the county would receive back for its own roads less than \$30,000.

# DROP IN MEAT PRICES EXPECTED VERY SOON

## STEP TO REDUCE COST OF LIVING

Government Experts to Inspect  
Foreign Packing Plants.

## WILL EXPEDITE ENTRY OF MEAT

Officials Ordered to South America and Australia in Anticipation of the New Tariff Act Admitting Meat and Meat Products Free of Duty—Packers To Be Instructed How to Prepare Their Products.

Washington, July 22.—In anticipation of the new tariff act admitting free of duty meat and meat products, Secretary Houston of the department of agriculture has detailed Dr. A. D. Melvin, chief of the bureau of animal industry, to go to South America to investigate the slaughtering, canning and general packing house business of that continent. Secretary Houston also has ordered E. C. Joss of the bureau of animal industry, whose headquarters are at Portland, Ore., immediately to proceed to Australia to make a similar investigation there. It is admitted at the department of agriculture that as a matter of fact Dr. Melvin and Dr. Joss, both experts in their line, are being sent to the big beef-producing countries to instruct packers there how to prepare their products so as to expedite the entry into this country of fresh beef when the act becomes effective.

The action of the department in sending experts with assistants is regarded as the most advanced step yet taken by the administration in the hope of reducing the cost of living in this country. The department recently received information that American packers are preparing to increase their facilities in South American countries in anticipation of increased trade, but whether or not this promises any substantial relief seems doubtful.

According to Dr. Melvin, the situation in regard to the beef supply in this country is serious. He says that Americans are the greatest consumers of beef in the world. The average consumption of meat here is 162 pounds a year for each person, of which beef alone constitutes 80 pounds. One of the reasons of the lack of beef cattle in this country, said Dr. Melvin, "is a failure to permit cattlemen to lease public ranges where it can be fenced and watered and the most got out of the public range in that way."

## HUERTA'S EMISSARY SAYS MEXICO WILL FIGHT

### ABUSES UNCLE SAM

Huerta's Emissary Says Mexico Will Resist Intervention.

Havana, July 22.—Garza Aldape, General Huerta's emissary, who arrived here from New York, abuses the United States for not recognizing the Huerta regime in Mexico, and says the government at Washington is helping the Mexican rebels. Mexico, Aldape says, was about to hand Ambassador Wilson his passports when he was recalled. The Mexicans, he says, will resist intervention by the United States until every man, woman and child has been killed. Japan, he added, would help the Mexicans.

## WOE TO SALOONISTS CAUGHT UNDER THIS

### DENIED LICENSES

Will Be Saloonkeepers Who Shield Criminals, Says Cox.

Columbus, O., July 22.—More far-reaching than the prosecution of persons implicated in the frauds in connection with the referendum on the Green workmen's compensation law will be an investigation started by Governor Cox. Saloonkeepers who, he thinks have been harboring the crooks who perpetrated the referendum frauds or have permitted the use of their places of business as refuges for criminals of any sort, will be denied licenses by the state licensing board, according to a statement issued from the governor's office. W. A. Clifford, a Cleveland attorney, was arrested on a charge of perjury in connection with the referendum frauds. Clifford is said to have circulated petitions in Chillicothe.

## RUDE DETECTIVES SPOIL LITTLE GAME

### GIRL UNDER THE BED

Two Detectives Respond When a Man Yells For Help.

New York, July 22.—Her feet protruding from under a bed caused the discovery of Anna Weinstein, 19, in the apartment of Meyer Kersch. Kersch shouted when he saw the feet and ran into the street, attracting the attention of two detectives, who dragged the girl from her hiding place and took her to a police station, charged with burglary. At police headquarters the finger print records show the girl was arrested under the name of Hattie Levine on June 25, 1912, after a robbery. When she was dragged from under the bed, the police say, the girl had a skeleton key.

## MAY RIVAL AUTO AS DEATH AGENCY

### TROTOL A NEW EXPLOSIVE

More Powerful Than Dynamite and Can Not Be Set Off by Shock.

New York, July 22.—The safest, highest power explosive the world has yet seen, an explosive equal to the strongest dynamite made, the "80 per cent dynamite" has been perfected by a lieutenant of the New York National Guard after three years' work. He will give it to the United States government, although a half dozen nations would pay from \$500,000 up for the secret of the formula.

Lieutenant Harold Chase, Woodward of the Twenty-second Engineers, New York National Guard, is the inventor of trotol, the newest and most deadly combustible. Trotol can be exploded only by fulminate of mercury, the substance used to explode dynamite. It can not be set off by any shock, however great. Six ounces of trotol will do the explosive work of 12 ounces of dynamite. Dynamite deteriorates in water or on the water and under certain atmospheric conditions. Trotol can be soaked in water for years and be as good as ever. Lieutenant Woodward says he will give the full secret of trotol only to the United States government.

## COULDN'T HAVE ACTED VERY MUCH WORSE

### FIVE PERSONS HURT

Auto Blows a Tire, Hits Pole and Causes a Runaway.

Van Wert, O., July 22.—Three men in a small automobile and two girls in a buggy were badly injured east of Van Wert, when the automobile blew a tire and ran into a telephone pole. The horse driven by the girls became frightened and ran away, throwing them to the road. J. Edward Carr, Van Wert manufacturer, was probably fatally hurt. The others injured were: A. E. Stickney, train dispatcher; H. G. Newman, former chief dispatcher; Ruth Martin and Grace Martin. All live in Van Wert.

## HEN EGG WEIGHS OVER SIX OUNCES.

Springfield, O., July 22.—An egg weighing more than six ounces and measuring seven and a half inches around its widest part is the record of a hen belonging to C. A. Rich. The egg is the fourth laid by the hen, which is a show winner. The other three weighed four ounces each. The hen is a Rhode Island Red.

## Marshall's Wife Cremated.

Columbus, O., July 22.—Mrs. Rose Swartz, wife of Charles Swartz, village marshal of Grove City, died from injuries she received when a can of kerosene exploded. Mrs. Swartz was starting a fire in the kitchen stove and used the kerosene to hasten the blaze.

### LAWN FETE.

The ladies of Elmwood Aid Society will give a lawn fete on Shadyside school grounds, Wednesday evening July 23rd. Home-made cake and ice cream will be served. The public is cordially invited. 170 3t

Meeting of the Queen Esther Circle at the home of Mrs. D. H. Rowe, Tuesday evening 7:15. Election of officers. PRESIDENT. 170 2t

## DOESN'T BELIEVE RELIEF WILL COME

### ATTACKS TARIFF BILL

Senator Burton Says It Will Not Lower Cost of Living.

Washington, July 22.—Republican senators continue to bombard the Underwood-Simmons tariff bill. Senator Burton of Ohio expressing the assurance that it would fail in its purpose to lower the cost of living, and Senator Smoot of Utah branding it as "the most injurious tariff measure ever taken up for consideration by congress."

That the pending bill could not possibly fulfill its mission Senator Burton declared, is now admitted by some of its original sponsors. He named Secretary Redfield in this connection. Senator Burton further declared that the Democrats had framed a bill which literally tears to pieces the fiscal policy of the nation in order to satisfy the craving for lowering the cost of living and to justify the declaration of their party platform that the chief cause of the high cost of living was the existing protective tariff enacted by the Republican party.

## OHIO HAPPENINGS

State Liquor Licensing Commission. Columbus, O., July 22.—A proposed member of the state liquor licensing commission is Samuel A. Hoskins of Angazie county. John J. Sullivan, East Liverpool editor, Progressive candidate for secretary of state, is also mentioned as a prospective member of the state commission. Liberal interests are said to be opposed to the appointment of Mr. Hoskins. Mr. Sullivan favors strict saloon regulation.

Woman Killed at Crossing. Akron, O., July 22.—Miss Isabel Ross, 24, of Akron, was killed, and Bryan E. Rogers, son of Common Pleas Judge Rogers, and William Joy, both of Akron, were probably fatally injured when an automobile which they were driving was hit by a Pennsylvania train at Betties Corners, near Akron.

Judge Wanamaker to Lecture. Cleveland, O., July 22.—Judge R. M. Wanamaker of the Ohio supreme court has signed a contract with the Chautauque bureau to lecture at Chautauque during July and August of next year. He will discuss the recall of judges, of which he is in favor.

Husband Killed. Dennison, O., July 22.—Tony Sine abbarid was shot and killed with a revolver while in bed. His wife, Coroner Ritter stated, said that her husband had been shot while the couple was fighting for possession of the weapon. The woman was arrested.

Found With Bullet In Heart. Youngstown, O., July 22.—The body of Stephen Lang, 31, a farmer, was found on the Cunningham farm, near Edenburg, Pa., with a bullet hole through his heart. Lang has been missing from his home in Newcastle since Wednesday.

Motorcyclist Fatally Hurt. Lima, O., July 22.—Walter Matthews of Ada will die and Frederick McElroy of Ada had a miraculous escape from death when they crashed into a bridge near Lafayette. Their motorcycle was going 50 miles an hour, it is said.

## LANE DUE IN NEW YORK ON FRIDAY

### STEAMER DELAYED

Ambassador Wilson Will Reach New York Next Friday.

Havana, July 22.—Henry Lane Wilson, the American ambassador to Mexico, who has been summoned home by President Wilson for a conference on the situation in that country, arrived here from Vera Cruz on the steamship Mexico. The steamer was delayed 19 hours because she towed in a Ward line tug which had broken down. Mr. Wilson expected to proceed to Washington via Florida, but on account of the delay in the arrival of the steamer missed his connection by this route and will continue on to New York by the Mexico, reaching that city Friday.

## How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
